

Custom Lube Trucks Built Your Way

J&J Truck Equipment is a leading manufacturer of high quality lubrication trucks for commercial and government applications. Rely on our 30+ years of experience to provide you with a truck that's built to suit your needs.

We offer a wide variety of tank materials such as aluminum, steel, stainless and our latest **co-polypropylene**.

- Downtime is simply lost money — that's why we produce the most efficient and quality built products.
- Lubrication truck layouts can be arranged in many different configurations to best tailor the truck to your specific application.
- We partner with industry leaders like Ingersoll-Rand, Stellar, Graco, Webasto and many others.
- Our ISO 9001:2008 certification demonstrates our commitment to quality workmanship.

Hoses and reels can be located at the rear or side of the unit for operator safety and ease of use.

Oil products, water, and antifreeze tanks are safely stored in the enclosed body.

- Open or Closed Bodies (Steel, Aluminum, Stainless, or Co-polypropylene)
- Air or Hydraulic Driven Pump Systems
- Various Tank Capacities and Construction Tank Heaters
- High pressure Wash Systems
- Oil Evacuation Systems
- Hydraulic or Diesel Powered Air Compressors
