

ASME U Stamp
 ASME R Stamp
 ASME S Stamp

The rear deck features an aluminum meter enclosure with slotted nozzle holster, Guidemaster Hannay reel, tread plate bumper, and LED work lights.

Our Liquid Propane Gas tanks feature superior construction and craftsmanship.

J&J bobtail tanks are designed and built by our qualified and knowledgeable personnel who are backed by years of experience in engineering, welding, and fabrication. J&J tanks are precision-engineered to meet DOT regulations and are tested prior to delivery. Depend on J&J to provide you with competitive quotes and exceptional customer service.

Rely on our experience.

There's no substitute for a bobtail tank built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 55+ years of experience to build you the tankers you want - we'll build them to your specification and application.

SPECIFICATIONS & DIMENSIONAL DATA FOR DYNAHAULER LPG BOBTAIL TANKS

This photograph shows the optional spray-on protective coating that J&J offers. It outlasts and out-performs paints and undercoatings. It also prevents rust and corrosion and provides excellent impact and abrasion resistance.

VESSEL STANDARD SPECIFICATIONS*

	SIZES						
Capacity (Gallons)	2800	3000	3200	3400	3499	5000	5500
Length (Inches)	159"	168"	177"	187"	192"	262"	285"

Application: 250 PSI Allowable Pressure; -10°F to 125°F Allowable Temperature Range; Meets DOT M-331, TC-331, and ASME Section VIII, Division 1

Diameter: 80.1" OD

Shell: SA612 NQT Steel

Heads: 1 Piece Hemispherical SA612 NQT Steel

X-Ray: Butt welds 100% Full Length

Baffles: Weld-in Steel

Manway: 16"

Fixed Liquid Level Gauge: At 85% Capacity

Liquid Level Gauge: Magnetic

Tank Thermometer: With Thermowell

Tank Pressure Gauge: Standard

Seamless Piping w/Forged Pipe Fittings: Schedule 80 steel

Valve Specs: 3" Air Operated Internal Safety Valve on Pump Connection, 1¼" Air Operated Internal Safety Valve on Vapor Line, 2" Internal Pressure Relief Valve, Hose End Valve

Emergency Shutoff: Air Operated with Thermal Protection on Internal Safety Valves

Liquid Withdraw Tank Valve and Cap: 1¼"

LPG Pump: 3" Blackmer Direct Drive, 3" Corken Direct Drive, 3" Blackmer Hydraulic Drive OR 3" Corken Hydraulic Drive

Rear Drop Deck Structure Material: Steel

Deck Plate Material: Aluminum

Bumper: DOT, Steel, Full Width

Mechanical Flow Meter: 2" Liquid Controls

- LCR-II System:** With Temperature Compensation and In-Cab Printer Meter Enclosure w/LED Compartment Lighting: Aluminum
- Hose Reel:** Hannay EPBGMB 12 VDC w/Guidemaster Bottom Rewind.
- Fender Style:** Various Configurations Available
- LED Lights:** DOT Vapor Proof, Deck Mounted, 4 Stop/Tail/Turn, 2 Backup, License Plate; Marker/Clearance; 3 Cluster Lights
- Emergency Manual Shutdown:** Chassis-Mounted Air Operated
- Decals:** DOT Placard and Markings
- Backup Alarm:** Directs Warning Signal to Rear of Vehicle; Grommet Mounted in Rear Deck
- Fire Extinguisher:** 20 lbs., Driver Side
- Wheel Chocks:** Aluminum Construction with Holder and Retainer, Driver Side
- PTO Indicator:** Indicator Light on Dash, if Applicable
- Blast and Prime Paint:** Blast (SPC-6, 1.5-2.0 Mil Anchor Profile); Sherwin-Williams Genesis®
- Popular Options:** Side Liquid Self-Load Connection w/Strainer • Stainless Rear Drop Deck Structure • Steel or Stainless Deck Plate Material • Rear Deck Enclosure • Steel, Stainless, or Polished Aluminum Meter Enclosure • Slot into Meter Enclosure • Additional Lighting Options • Smart Interlock Technology • J&J Armor Coating (Black) • Toolbox Under Rear Deck or Curbside • Automatic Tire Chains • Pro-Vision 5" Monitor and Night Vision Camera

*Standard specifications may vary according to customer's preferences and requirements. Many options available. **Call your J&J sales representative today!**
