

The Lightweight Crossmemberless (LWC) Smooth Side steel dump body provides a considerable weight savings over traditional side post models.

Haul more payload with our Smooth Side steel dump bodies.

Smooth, sleek design!

If you're looking for a lighter weight solution and a sleek, smooth look, then this is the dump body for you. The J&J Smooth Side steel dump body is comparable to aluminum dump bodies in weight with the proven impact and abrasion resistance of high hard steel. It's an excellent solution for hauling asphalt today, and shot rock tomorrow. If you haul rock, gravel, asphalt or other aggregates, you owe it to yourself to check out the Smooth Side crossmemberless dump bodies from J&J Truck Bodies & Trailers.

Rely on our experience.

There's no substitute for a truck body built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 55+ years of experience to build you the dump trucks you want - we'll build them to your specification and application.

SPECIFICATIONS & DIMENSIONAL DATA FOR LIGHT WEIGHT CROSSMEMBERLESS SMOOTH SIDE DUMP BODIES

Rely on J&J Smooth Side dump bodies to deliver precision-engineered performance every time.

The absence of crossmembers reduces the weight of these trucks.

The hydraulic lift tailgate option prevents tailgate damage from large objects and functions as a conventional tailgate for standard aggregate hauling.

STEEL STANDARD SPECIFICATIONS*

Lengths: 13' to 20'.

Side Panels & Bulkhead: 1/8" Body Armor steel

Floor: 3/16" floor with radius corners.

Understructure: Crossmemberless design, rubber dampening cushion.
