is a division of
Somerset Welding & Steel, Inc.*

**Spec up for big rock.
Spec down for great payload.**

The DynaHauler® Semi-Elliptical (SE) steel dump body is designed to absorb impact and maximize volume. Featuring the proven durability and abrasion resistance of J&J Body Armor, these dump bodies are designed to stand up to a constant diet of big rock or to maximize aggregate payloads. You'll increase the return on your truck investment when you purchase a J&J Semi-Elliptical steel body.

Rely on our experience.

There's no substitute for a truck body built by the experts at J&J Truck Bodies & Trailers. We don't cut corners and we don't compromise on quality. Rely on our 55+ years of experience to build you the dump trucks you want - we'll build them to your specification and application.
